Campaign effectiveness case study

JCDecaux PROOF

The Domino's Brief

Relative to QSR competitors, Domino's currently trails on perceptions of quality, service, taste and range.

The MORE campaign was tasked with building associations with quality and generosity: "**Domino's gives me more, because I deserve it**".

Success of the campaign would be measured by strengthened brand perceptions and increased sales.

Campaign dates: 14/08/23 – 10/09/23

The Domino's Campaign

A multichannel campaign running across **TV, BVOD, digital and social** in Brisbane and Sydney.

The JCDecaux Campaign

Domino's also featured JCDecaux Out-of-Home activity running in **Brisbane only.**

A Measurement Opportunity

Contrasting Brisbane with Sydney gives us visibility of the **impact driven by Out-of-Home.**

The JCDecaux approach

A multi-format, four-week HFSS compliant campaign delivering scale and impact.

Create

Future Demand

People who are not in-market now but will be in the future. They need to become familiar with the brand and develop a connection, so that when they enter the market, they'll choose your brand.

Convert

Existing Demand

People who are ready to buy now. They're interested in product information and offers, and conversion can often happen quickly after a single offer or campaign.

Measuring audience visitation

Using thousands of mobile devices owned by JCDecaux audiences, we can measure the affect the Domino's campaign on footfall to Domino's stores.

The methodology

Step-by-step, we're able to measure audience visitation to Domino's locations across Brisbane

1

Pre-Campaign Benchmarking

Understand both asset and place of interest visitation patterns

2

Campaign Period

Collect devices of those exposed to the ads versus those who were not, along with information of their visitation to Domino's restaurants

3

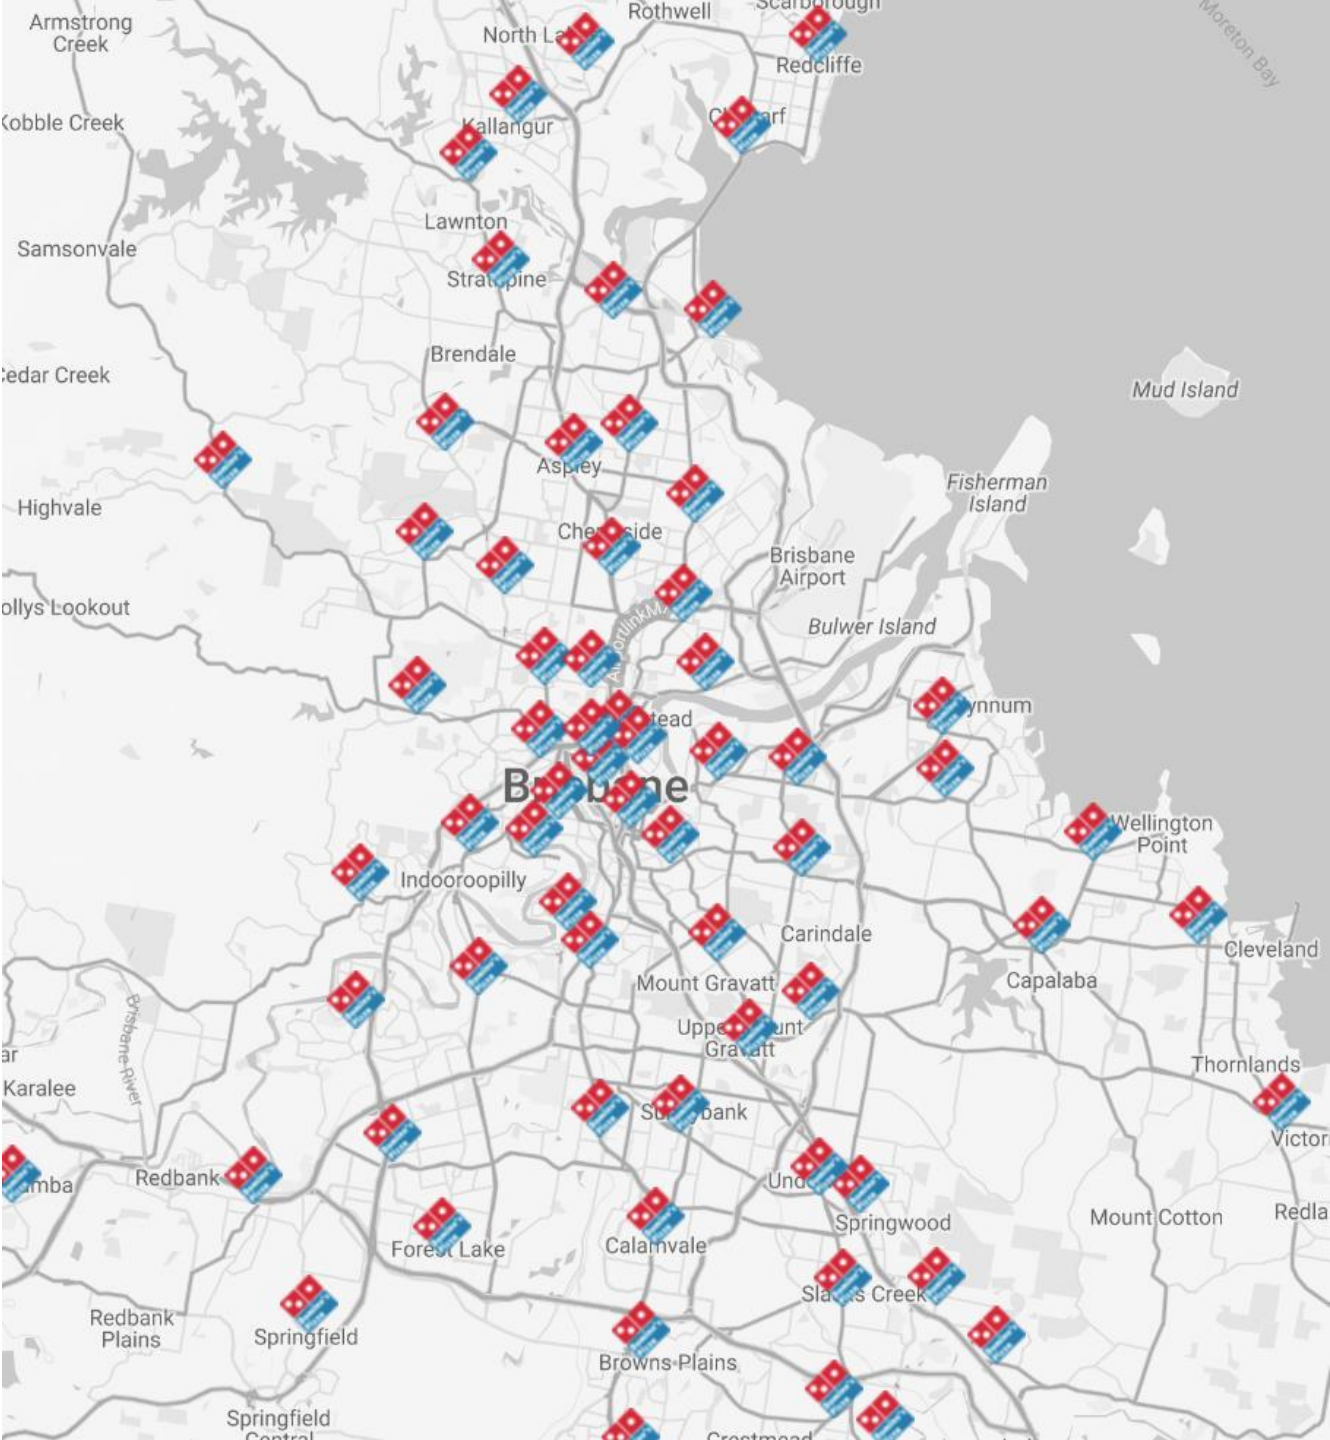

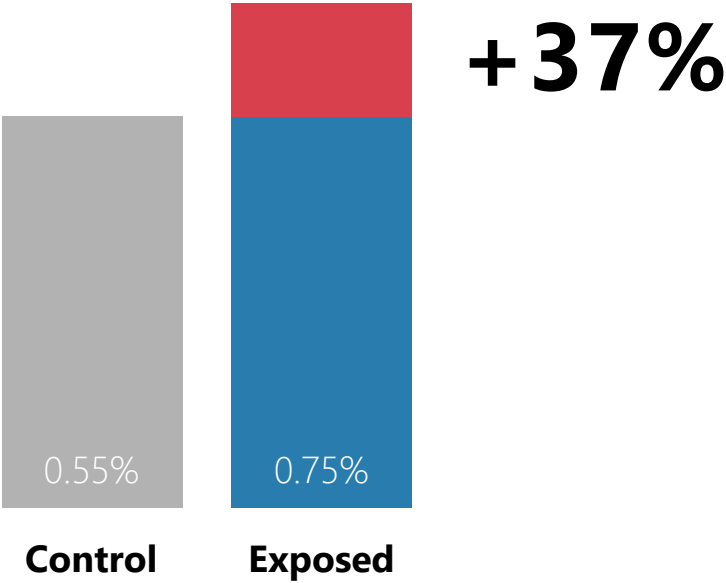

Post-Campaign Analysis

Footfall of those exposed to ads is compared to the non-exposed audience for uplift analysis

Analysis revealed heightened footfall after exposure to the Out-of-Home

Audiences exposed to the JCDecaux campaign showed a +37% uplift in being in-store compared to the non-exposed control group.

Visitation amongst the exposed audience trended upwards as the campaign progressed

Exposed
Control

VISITATION BY DAY AND TIME

The exposed audience increased visitation on weekends and evenings

While similar behaviour was observed amongst both groups, notably on Friday's, the campaign pushed more audiences in-store on weekends and after 6pm.

Day of Week

Hour of Day

EXPOSURE TIME TO VISITATION

80% of exposed audience were seen in store at within 4 days of exposure

The campaign quickly converted existing demand, with 4 in 5 of those seen in-store visiting within 4 days of exposure.

EXPOSURES TO VISITATION

Most in-store audiences visited after 5 or less campaign exposures

83% of those seen in-store had 1 to 5 exposures to the Domino's campaign.

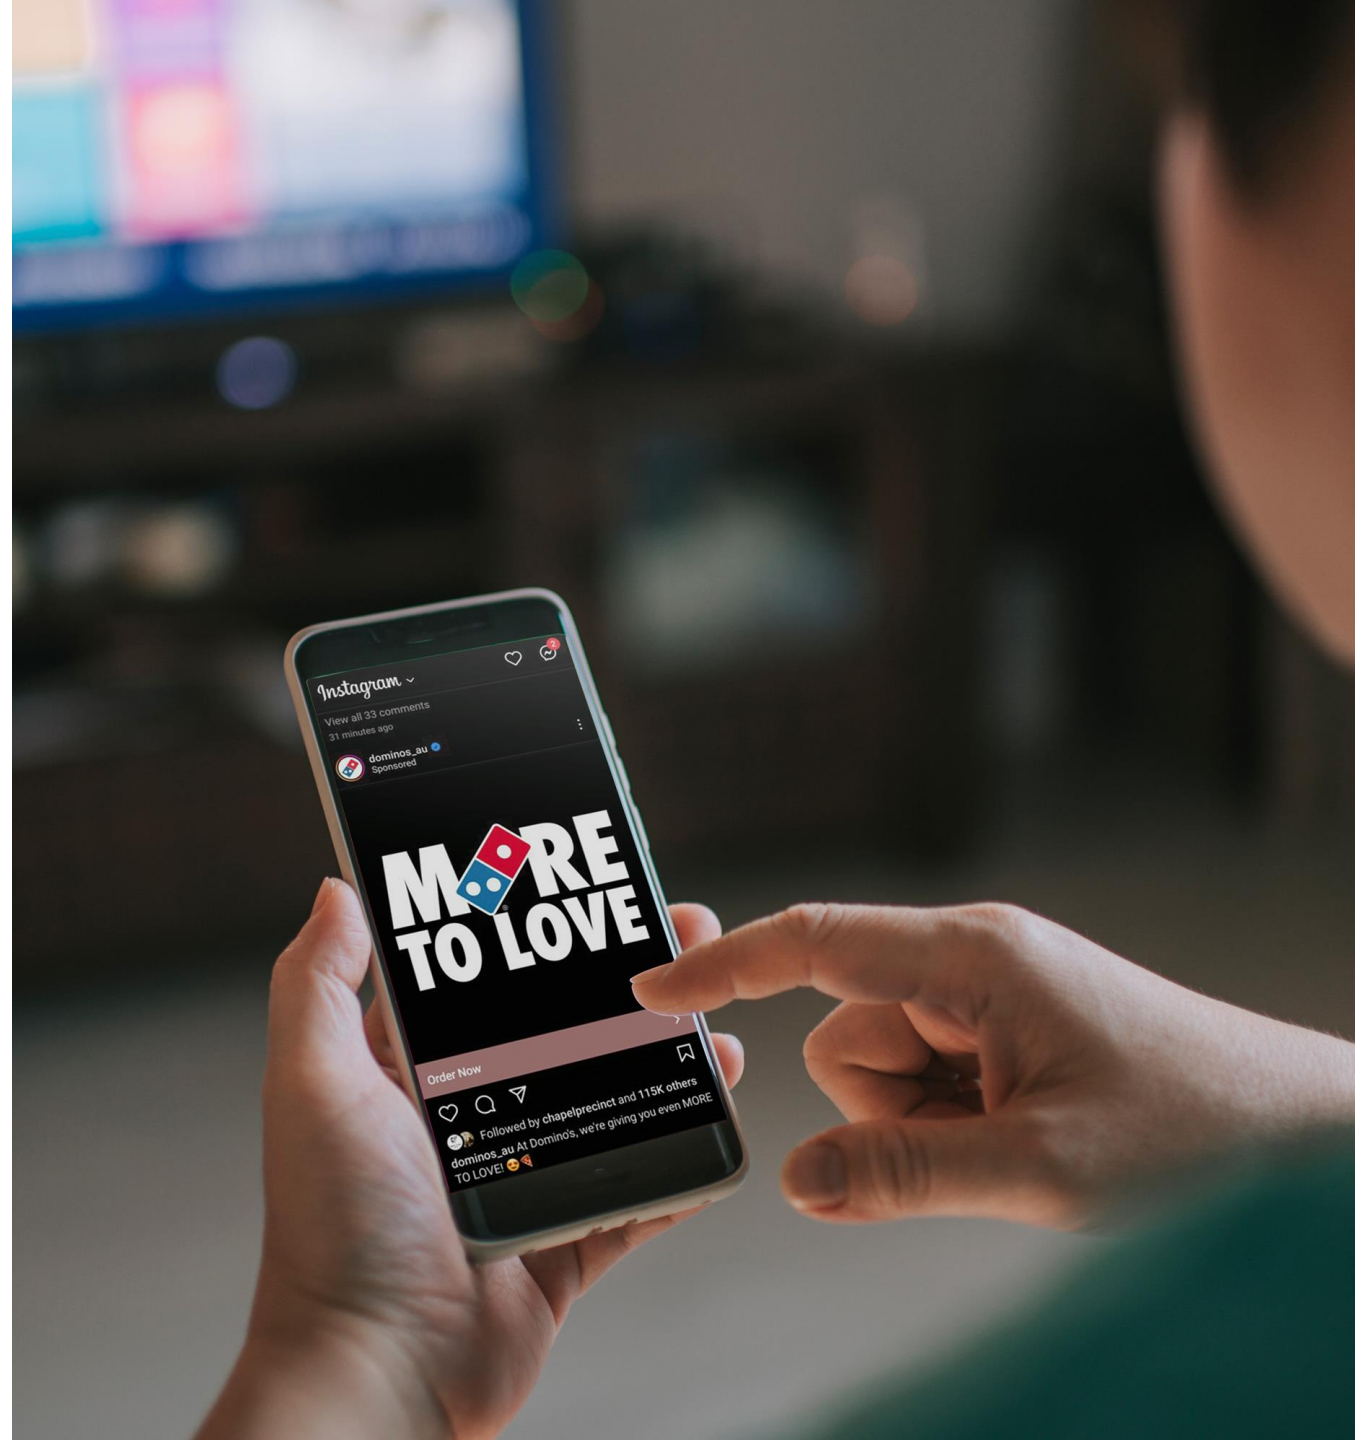

JCDecauxMATCH

Retargeting of exposed audiences delivered a remarkable increase in digital click-through rates

“Dominos have reported an unprecedented 400% increase in click-through rates from exposed audiences during the MORE campaign which ran across JCDecaux assets.”
